INDEPENDENT AUDITOR’S REPORT

2026

Child and Adolescent Health Service

To the Parliament of Western Australia

Report on the audit of the financial statements

Opinion

I have audited the financial statements of the Child and Adolescent Health Service (Health Service) which comprise:

- the statement of financial position as at 30 June 2026, the statement of comprehensive income, statement of changes in equity and statement of cash flows for the year then ended
- notes comprising a summary of material accounting policies and other explanatory information.

In my opinion, the financial statements are:

- based on proper accounts and present fairly, in all material respects, the operating results and cash flows of the Health Service for the year ended 30 June 2026 and the financial position as at the end of that period
- in accordance with Australian Accounting Standards, the *Financial Management Act 2006* and the Treasurer’s Instructions.

Basis for opinion

I conducted my audit in accordance with the Australian Auditing Standards. My responsibilities under those standards are further described in the Auditor’s responsibilities for the audit of the financial statements section of my report.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Responsibilities of the Board for the financial statements

The Board is responsible for:

- keeping proper accounts
- preparation and fair presentation of the financial statements in accordance with Australian Accounting Standards, the *Financial Management Act 2006* and the Treasurer’s Instructions
- such internal control as it determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board is responsible for:

- assessing the entity’s ability to continue as a going concern
- disclosing, as applicable, matters related to going concern
- using the going concern basis of accounting unless the Western Australian Government has made policy or funding decisions affecting the continued existence of the Health Service.

Auditor’s responsibilities for the audit of the financial statements

As required by the *Auditor General Act 2006*, my responsibility is to express an opinion on the financial statements. The objectives of my audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.

A further description of my responsibilities for the audit of the financial statements is located on the Auditing and Assurance Standards Board website. This description forms part of my auditor’s report and can be found at https://www.auasb.gov.au/auditors_responsibilities/ar4.pdf.

Report on the audit of controls

Opinion

I have undertaken a reasonable assurance engagement on the design and implementation of controls exercised by the Health Service. The controls exercised by the Health Service are those policies and procedures established to ensure that the receipt, expenditure and investment of money, the acquisition and disposal of property, and the incurring of liabilities have been in accordance with the State’s financial reporting framework (the overall control objectives).

In my opinion, in all material respects, the controls exercised by the Health Service are sufficiently adequate to provide reasonable assurance that the controls within the system were suitably designed to achieve the overall control objectives identified as at 30 June 2026, and the controls were implemented as designed as at 30 June 2026.

The Board’s responsibilities

The Board is responsible for designing, implementing and maintaining controls to ensure that the receipt, expenditure and investment of money, the acquisition and disposal of property and the incurring of liabilities are in accordance with the *Financial Management Act 2006*, the Treasurer’s Instructions and other relevant written law.

Auditor General’s responsibilities

As required by the *Auditor General Act 2006*, my responsibility as an assurance practitioner is to express an opinion on the suitability of the design of the controls to achieve the overall control objectives and the implementation of the controls as designed. I conducted my engagement in accordance with Standard on Assurance Engagements *ASAE 3150 Assurance Engagements on Controls* issued by the Australian Auditing and Assurance Standards Board. That standard requires that I comply with relevant ethical requirements and plan and perform my procedures to obtain reasonable assurance about whether, in all material respects, the controls are suitably designed to achieve the overall control objectives and were implemented as designed.

An assurance engagement involves performing procedures to obtain evidence about the suitability of the controls design to achieve the overall control objectives and the implementation of those controls. The procedures selected depend on my judgement, including an assessment of the risks that controls are not suitably designed or implemented as designed. My procedures included testing the implementation of those controls that I consider necessary to achieve the overall control objectives.

I believe that the evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Limitations of controls

Because of the inherent limitations of any internal control structure, it is possible that, even if the controls are suitably designed and implemented as designed, once in operation, the overall control objectives may not be achieved so that fraud, error or non-compliance with laws and regulations may occur and not be detected. Any projection of the outcome of the evaluation of the suitability of the design of controls to future periods is subject to the risk that the controls may become unsuitable because of changes in conditions.

Report on the audit of the key performance indicators

Opinion

I have undertaken a reasonable assurance engagement on the key performance indicators of the Health Service for the year ended 30 June 2026 reported in accordance with the *Financial Management Act 2006* and the Treasurer’s Instructions (legislative requirements). The key performance indicators are the Under Treasurer-approved key effectiveness indicators and key efficiency indicators that provide performance information about achieving outcomes and delivering services.

In my opinion, in all material respects, the key performance indicators report of the Health Service for the year ended 30 June 2026 is in accordance with the legislative requirements, and the key performance indicators are relevant and appropriate to assist users to assess the Health Service’s performance and fairly represent indicated performance for the year ended 30 June 2026.

The Board’s responsibilities for the key performance indicators

The Board is responsible for the preparation and fair presentation of the key performance indicators in accordance with the *Financial Management Act 2006* and the Treasurer’s Instructions and for such internal controls as the Board determines necessary to enable the preparation of key performance indicators that are free from material misstatement, whether due to fraud or error.

In preparing the key performance indicators, the Board is responsible for identifying key performance indicators that are relevant and appropriate, having regard to their purpose in accordance with Treasurer’s Instruction 3 Financial Sustainability – Requirement 5 Key Performance Indicators.

Auditor General’s responsibilities

As required by the *Auditor General Act 2006*, my responsibility as an assurance practitioner is to express an opinion on the key performance indicators. The objectives of my engagement are to obtain reasonable assurance about whether the key performance indicators are relevant and appropriate to assist users to assess the Health Service’s performance and whether the key performance indicators are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes my opinion. I conducted my engagement in accordance with Standard on Assurance Engagements *ASAE 3000 Assurance Engagements Other than Audits or Reviews of Historical Financial Information* issued by the Australian Auditing and Assurance Standards Board. That standard requires that I comply with relevant ethical requirements relating to assurance engagements.

An assurance engagement involves performing procedures to obtain evidence about the amounts and disclosures in the key performance indicators. It also involves evaluating the relevance and appropriateness of the key performance indicators against the criteria and guidance in Treasurer’s Instruction 3 - Requirement 5 for measuring the extent of outcome achievement and the efficiency of service delivery. The procedures selected depend on my judgement, including the assessment of the risks of material misstatement of the key performance indicators. In making these risk assessments, I obtain an understanding of internal control relevant to the engagement in order to design procedures that are appropriate in the circumstances.

I believe that the evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

My independence and quality management relating to the report on financial statements, controls and key performance indicators

I have complied with the independence requirements of the *Auditor General Act 2006* and the relevant ethical requirements relating to assurance engagements. In accordance with ASQM 1 *Quality Management for Firms that Perform Audits or Reviews of Financial Reports and Other Financial Information, or Other Assurance or Related Services Engagements*, the Office of the Auditor General maintains a comprehensive system of quality management including documented policies and procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

Other information

Those charged with governance are responsible for the other information. The other information is the information in the entity’s annual report for the year ended 30 June 2026, but not the financial statements, key performance indicators and my auditor’s report.

My opinions on the financial statements, controls and key performance indicators do not cover the other information and accordingly I do not express any form of assurance conclusion thereon.

In connection with my audit of the financial statements, controls and key performance indicators my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements and key performance indicators or my knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work I have performed, I conclude that there is a material misstatement of this other information, I am required to report that fact. I did not receive the other information prior to the date of this auditor’s report. When I do receive it, I will read it and if I conclude that there is a material misstatement in this information, I am required to communicate the matter to those charged with governance and request them to correct the misstated information. If the misstated information is not corrected, I may need to retract this auditor’s report and re-issue an amended report.

Matters relating to the electronic publication of the audited financial statements and key performance indicators

This auditor’s report relates to the financial statements and key performance indicators of the Child and Adolescent Health Service for the year ended 30 June 2026 included in the annual report on the Health Service’s website. The Health Service’s management is responsible for the integrity of the Health Service’s website. This audit does not provide assurance on the integrity of the Health Service’s website. The auditor’s report refers only to the financial statements, controls and key performance indicators described above. It does not provide an opinion on any other information which may have been hyperlinked to/from the annual report. If users of the financial statements and key performance indicators are concerned with the inherent risks arising from publication on a website, they are advised to contact the Health Service to confirm the information contained in the website version.

Aloha Morrissey
A/Deputy Auditor General
Delegate of the Auditor General for Western Australia

CERTIFICATION OF FINANCIAL STATEMENTS

Child and Adolescent Health Service

Certification of financial statements for the year ended 30 June 2026

The accompanying financial statements of the Child and Adolescent Health Service have been prepared in compliance with the provisions of the *Financial Management Act 2006* from proper accounts and records to present fairly the financial transactions for the financial year ended 30 June 2026 and the financial position as at 30 June 2026.

At the date of signing, we are not aware of any circumstances which would render the particulars included in the financial statements misleading or inaccurate.

Ms Janet Yap
Acting Chief Finance Officer
Child and Adolescent Health Service
28 August 2026

Dr Neale Fong

The Statement of Changes in Equity should be read in conjunction with the accompanying notes.

Notes to the financial statements for the year ended 30 June 2026

1. Basis of preparation

The Child and Adolescent Health Service (The Health Service) is a statutory authority established under the *Health Services Act 2016* and governed by a Board. The Health Service is controlled by the State of Western Australia, which is the ultimate parent. The Health Service is a not-for-profit entity (as profit is not its principal objective).

A description of the nature of the Health Service’s operations and its principal activities has been included in the ‘Overview’ section of the annual report which does not form part of these financial statements.

These annual financial statements were authorised for issue by the Accountable Authority (the Board) of the Health Service on 28 August 2026.

Statement of compliance

The financial statements constitute general purpose financial statements that have been prepared in accordance with Australian Accounting Standards, the Framework, Statement of Accounting Concepts and other authoritative pronouncements of the Australian Accounting Standards Board as applied by Treasurer’s instructions. Several of these are modified by Treasurer’s instructions to vary application, disclosure, format and wording.

The Act and Treasurer’s instructions are legislative provisions governing the preparation of financial statements and take precedence over Australian Accounting Standards, the Framework, Statement of Accounting Concepts and other authoritative pronouncements of the Australian Accounting Standards Board. Where modification is required and has had a material or significant financial effect upon the reported results, details of that modification and the resulting financial effect are disclosed in the notes to the financial statements.

Basis of preparation

These financial statements are presented in Australian dollars applying the accrual basis of accounting and using the historical cost convention. Certain balances will apply a different measurement basis (such as the fair value basis). Where this is the case, the different measurement basis is disclosed in the associated note. All values are rounded to the nearest thousand dollars (\$000).

Comparative figures have been reclassified to be comparable with the figures presented in the current financial year.

Notwithstanding the Health Service’s deficiency of working capital (total current assets being less than total current liabilities), the financial statements have been prepared on the going concern basis. This basis has been adopted because, with continuing funding from the State Government, the Health Service is able to pay its liabilities as and when they fall due.

Judgements and estimates

Judgements, estimates and assumptions are required to be made about financial information being presented. The significant judgements and estimates made in the preparation of these financial statements are disclosed in the notes where amounts affected by those judgements and/or estimates are disclosed. Estimates and associated assumptions are based on professional judgements derived from historical experience and various other factors that are believed to be reasonable under the circumstances.

Contributed equity

AASB Interpretation 1038 *Contributions by Owners Made to Wholly-Owned Public Sector Entities* requires transfers in the nature of equity contributions, other than as a result of a restructure of administrative arrangements, to be designated as contributions by owners (at the time of, or prior, to transfer) before such transfers can be recognised as equity contributions. Capital appropriations have been designated as contributions by owners by TI 8 – Requirement 8.1(i) and will be credited directly to Contributed Equity.

The transfers of net assets to/from other agencies, other than as a result of a restructure of administrative arrangements, are designated as contributions by owners where the transfers are non-discretionary and non-reciprocal.

2. Health Service outputs

How the Health Service operates

This section includes information regarding the nature of funding the Health Service receives and how this funding is utilised to achieve the Health Service's objectives.

	Notes
Health Service objectives	2.1
Schedule of Income and Expenses by Service	2.2

2.1 Health Service objectives

Vision and objectives

The Health Service's vision of 'healthy kids, healthy communities' sees that children and young people get the best start in life through health promotion, early identification and intervention, and patient centred, family focused care. The objectives are to care for children, young people and families, provide high value healthcare, collaborate with key support partners, value and respect staff, and promote teaching, training and research.

The Health Service is predominantly funded by Parliamentary appropriations.

Services

The key services of the Health Service are:

Public Hospital Admitted Services

Public hospital admitted patient services describe the care services provided to inpatients in the hospital (excluding specialised mental health wards). An admission to hospital can be for a period of one or more days and includes medical and surgical treatment, oncology services and neonatology services.

Public Hospital Emergency Services

Emergency department services describe the treatment provided to those people with sudden onset of illness or injury of such severity and urgency that they need immediate medical help which is either not available from their general practitioner, or for which their general practitioner has referred them for treatment. An emergency department can provide a range of services and may result in admission to hospital or in treatment without admission.

Public Hospital Non-admitted Services

Medical officers, nurses and allied health staff provide non-admitted (out-patient) care services and include clinics for pre- and post-surgical care, allied health care and medical care.

Mental Health Services

Contracted mental health services describe inpatient care in an authorised ward and community mental health services provided by the Health Service under an agreement with the Mental Health Commission for specialised admitted and community mental health.

2.1 Health Service objectives (cont.)

Aged and Continuing Care Services

The provision of continuing care services includes the programs that provide functional interim care or support for children with disabilities to continue living with their families.

Public and Community Health Services

Community Health provides services and programs delivered to increase optimal health and wellbeing, encourage healthy lifestyle, reduce the onset of disease and disability, reduce the risk of long-term illness as well as detect, protect and monitor the incidence of disease in the population. These include child health services, school health services, child development services, public health programs and Aboriginal health programs.

2.2 Schedule of income and expenses by service

The Schedule of Income and Expenses by Service should be read in conjunction with the accompany notes.

(a) Under the service category of Aged and Continuing Care, only the Continuing Care Service component is applicable to the Health Service.

2.2 Schedule of income and expenses by service (cont.)

3. Use of our funding

This section provides information about how the Health Service's funding is applied and the accounting policies that are relevant for an understanding of the items recognised in the financial statements.

Expenses incurred in the delivery of services

The primary expenses incurred by the Health Service in achieving its objectives are:

	Notes	2026 \$000	2025 \$000
Employee benefits expense	3.1(a)	905,159	845,124
Contracts for services	3.2	8,707	8,778
Patient support costs	3.3	144,671	139,483
Repairs, maintenance and consumable equipment	3.4	28,256	30,014
Other supplies and services	3.5	69,007	65,695
Other expenses	3.6	60,126	49,466

Liabilities incurred in the delivery of services

The primary employee related liabilities incurred by the Health Service in achieving its objectives are:

	Notes	2026 \$000	2025 \$000
Employee benefits provisions	3.1(b)	221,802	211,424

3.1(a) Employee benefits expense

	2026 \$000	2025 \$000
Employee benefits	811,114	762,823
Termination benefits	132	290
Superannuation - defined contribution plans	93,913	82,011
	<u>905,159</u>	<u>845,124</u>

Employee benefits: Include salaries, wages, accrued and paid leave entitlements, paid sick leave and non-monetary benefits for employees.

Termination benefits: Payable when employment is terminated before normal retirement date, or when an employee accepts an offer of benefits in exchange for the termination of employment. Termination benefits are recognised when the Health Service is demonstrably committed to terminating the employment of current employees according to a detailed formal plan without possibility of withdrawal or providing termination benefits as a result of an offer made to encourage voluntary redundancy. Benefits falling due more than 12 months after the end of the reporting period are discounted to present value.

Superannuation: The amounts recognised in the Statement of Comprehensive Income comprise employer contributions paid to the Gold State Superannuation Scheme (GSS), the West State Superannuation Scheme (WSS), the GESB Super Scheme (GESBS), or other superannuation funds.

GSS (concurrent contributions) is a defined benefit scheme for the purposes of employees and whole-of-government reporting. It is however a defined contribution plan for the Health Service's purposes because the concurrent contributions (defined contributions) made by the Health Service to the Government Employees Superannuation Board (GESB) extinguishes the Health Service's obligations to the related superannuation liability.

The Health Service does not recognise any defined benefit liabilities because it has no legal or constructive obligation to pay future benefits relating to its employees. The liabilities for the unfunded Pension Scheme and the unfunded GSS transfer benefits attributable to members who transferred from the Pension Scheme, are assumed by the Treasurer. All other GSS obligations are funded by concurrent contributions made by the Health Service to the GESB.

The GESB administers the public sector superannuation arrangements in Western Australia in accordance with legislative requirements. Eligibility criteria for membership in particular schemes for public sector employees vary according to commencement and implementation dates.

3.1(b) Employee benefits provisions

Provisions are made for benefits accruing to employees in respect of wages and salaries, annual leave, time off in lieu leave and long service leave for services rendered up to the reporting date and recorded as an expense during the period the services are delivered.

	2026 \$000	2025 \$000
Current		
Employee benefits provisions		
Annual leave ^(a)	91,830	83,779
Time off in lieu leave ^(a)	21,950	20,375
Long service leave ^(b)	69,177	69,551
Deferred salary scheme ^(c)	1,513	1,178
	<u>184,470</u>	<u>174,883</u>
Non-Current		
Employee benefits provisions		
Long service leave ^(b)	37,332	36,541
	<u>37,332</u>	<u>36,541</u>
Total employee benefits provisions	<u>221,802</u>	<u>211,424</u>

(a) **Annual leave and time off in lieu leave liabilities:** Classified as current as there is no unconditional right to defer settlement for at least 12 months after the end of the reporting period. Assessments indicate that actual settlement of the liabilities is expected to occur as follows:

	2026 \$000	2025 \$000
Within 12 months of the end of the reporting period	68,883	58,598
More than 12 months after the end of the reporting period	44,897	45,556
	<u>113,780</u>	<u>104,154</u>

The provision for annual leave and time off in lieu leave is calculated at the present value of expected payments to be made in relation to services provided by employees up to the reporting date.

3.1(b) Employee benefits provisions (cont.)

(b) **Long service leave liabilities:** Unconditional long service leave provisions are classified as current liabilities as the Health Service does not have an unconditional right to defer settlement of the liability for at least 12 months after the end of the reporting period.

Pre-conditional and conditional long service leave provisions are classified as non-current liabilities because the Health Service has an unconditional right to defer the settlement of the liability until the employee has completed the requisite years of service.

Assessments indicate that actual settlement of the liabilities is expected to occur as follows:

	2026	2025
	\$000	\$000
Within 12 months of the end of the reporting period	24,191	22,746
More than 12 months after the end of the reporting period	82,318	83,346
	<u>106,509</u>	<u>106,092</u>

The provision of the long service leave liabilities is calculated at present value as the Health Service does not expect to wholly settle the amounts within 12 months. The present value is measured taking into account the present value of expected future payments to be made in relation to services provided by employees up to the reporting date. These payments are estimated using the remuneration rate expected to apply at the time of settlement, discounted using market yields at the end of the reporting period on national government bonds with terms to maturity that match, as closely as possible, the estimated future cash outflows.

(c) **Deferred salary scheme liabilities:** Classified as current where there is no unconditional right to defer settlement for at least 12 months after the end of the reporting period. Assessments indicate that actual settlement of the liabilities is expected to occur as follows:

	2026	2025
	\$000	\$000
Within 12 months of the end of the reporting period	290	231
More than 12 months after the end of the reporting period	1,223	947
	<u>1,513</u>	<u>1,178</u>

3.1(b) Employee benefits provisions (cont.)

Key sources of estimation uncertainty – long service leave

Key estimates and assumptions concerning the future are based on historical experience and various other factors that have a significant risk of causing a material adjustment to the carrying amount of assets and liabilities within the next financial year.

Several estimates and assumptions are used in calculating the Health Service's long service leave provision. These include:

- Expected future salary rates;
- Discount rates;
- Employee retention rates; and
- Expected future payments.

Changes in these estimations and assumptions may impact on the carrying amount of the long service leave provision.

The employee retention rates were based on an analysis of the historical turnover rates exhibited by employees in the Health Service.

Any gain or loss following revaluation of the present value of long service leave liabilities is recognised as employee benefits expense.

3.2 Contracts for services

	2026 \$000	2025 \$000
Neonatal services ^(a)	7,065	7,065
Community and primary health	1,468	1,658
Other contracts	174	55
	<u>8,707</u>	<u>8,778</u>

Contracts for services include the costs related to the provision of health care services by external organisations. Expenses are recognised in the reporting period in which they are incurred.

(a) The neonatal services at the King Edward Memorial Hospital (KEMH) site formally became part of the Child and Adolescent Health Service on 1 February 2020. A purchasing arrangement has been in place with the North Metropolitan Health Service to continue the provision of support services.

3.3 Patient support costs

	2026 \$000	2025 \$000
Medical supplies and services ^(a)	122,984	118,262
Domestic charges	9,995	9,996
Food supplies	2,018	1,992
Power and water charges	7,389	7,395
Patient transport costs	2,070	1,431
Research, development and other grants	215	407
	<u>144,671</u>	<u>139,483</u>

Patient support costs are recognised in the reporting period in which expenses are incurred.

(a) Medical supplies and services include the pathology services received free of charge amounting to \$8.079 million from PathWest Laboratory Medicine WA (2025: \$7.530 million). See Note 4.1 'Income from State Government'.

3.4 Repairs, maintenance and consumable equipment

	2026 \$000	2025 \$000
Repairs and maintenance	21,893	23,963
Consumable equipment	6,363	6,051
	<u>28,256</u>	<u>30,014</u>

Repairs and maintenance expenses include the day-to-day servicing and minor replacement parts of property, plant and equipment. The cost of replacing a significant part of an item of property, plant and equipment is recognised in its carrying amount, if the recognition criteria are met.

3.5 Other supplies and services

	2026 \$000	2025 \$000
Facility management services	2,963	2,795
Administrative services	5,248	3,944
Interpreter services	1,600	1,632
Shared services for accounting ^(a)	977	935
Shared services for human resources ^(a)	6,352	6,284
Shared services for information technology ^(a)	46,064	43,942
Shared services for supply ^(a)	4,162	4,055
Other	1,641	2,108
	<u>69,007</u>	<u>65,695</u>

Other supplies and services are recognised in the reporting period in which expenses are incurred.

(a) The Health Service receives the shared services free of charge from the Health Support Services. See Note 4.1 'Income from State Government'.

3.6 Other expenses

	2026	2025
	\$000	\$000
Workers compensation insurance	8,730	8,546
Other insurances	17,764	11,473
Computer services	5,553	3,799
Printing and stationery	3,072	3,011
Consultancy fees	1,836	1,960
Rental expenses ^(a)	3,424	3,672
Expected credit losses expense ^(b)	635	630
Other employee related expenses	2,174	3,110
Communications	2,353	1,985
Other accommodation expenses ^(c)	3,293	2,818
Audit expenses	685	490
Legal expenses	447	399
Freight and cartage	549	555
Motor vehicle expenses	662	553
Periodical subscription	626	761
Write-off of plant and equipment (Note 5.1)	-	31
Other	8,323	5,673
	60,126	49,466

Other expenses generally represent the administrative costs incurred by the Health Service.

- (a) **Rental expenses** include:
- (i) Short-term leases with a lease term of 12 months of less;
 - (ii) Low-value leases with an underlying value of \$5,000 or less; and
 - (iii) Variable lease payments, recognised in the period in which the event or condition that triggers those payments occurs.
- (b) **Expected credit losses expense** is recognised as the movement in the allowance for impairment of receivables, measured at the lifetime expected credit losses at each reporting date. The Health Service has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment. See Note 6.1.1 ‘Movement of the allowance for impairment of receivables’.
- (c) **Other accommodation expenses** are for outgoing expenses only.

4. Our funding sources

How we obtain our funding

This section provides information about how the Health Service obtains its funding and the relevant accounting policy notes that govern the recognition and measurement of this funding. The primary income received by the Health Service are:

	Notes	2026	2025
		\$000	\$000
Income from State Government	4.1	1,176,318	1,068,414
Patient charges and other fees for services	4.2	83,402	78,747
Grants and contributions	4.3	24,021	19,115
Donation revenue	4.4	3,012	1,539
Other revenue	4.5	6,700	6,835

4.1 Income from State Government

	2026	2025
	\$000	\$000
Service agreement funding received during the period:		
Department of Health - Service agreement - State component	775,211	697,500
Department of Health - Service agreement - Commonwealth component ⁽ⁱ⁾	212,823	197,838
Total service agreement funding	988,034	895,338
Grants from other state government agencies during the period:		
Mental Health Commission - Service delivery agreement	115,131	99,845
Department of Health - Research development grant	1,268	675
Department of Health - ICWA motor vehicle accident scheme funding	1,037	4,522
Department of Health - Institute of Health Leadership program	100	100
Department of Health - Aboriginal cadetship program	-	12
Department of Health - Auspman fitout capital project	39	-
Department of Health - Graduate Transition to Practice Support Program	234	327
Department of Health - Other grants	52	44
Total grants from other state government agencies	117,861	105,525
Services provided to other state government agencies during the period:		
North Metropolitan Health Service - various clinical services	3,304	3,275
WA Country Health Service - various clinical services	600	545
Pathwest - infectious diseases program	-	68
Other	53	57
Total services provided to other state government agencies	3,957	3,945
Assets transferred from other State government agencies during the period:		
Transfer of medical equipment from/(to) other Health Services	-	268
Net assets transferred	-	268

4.1 Income from State Government (cont.)

	2026	2025
	\$000	\$000
Resources received free of charge from other State government agencies during the period:		
Health Support Services - accounting, human resources, information technology and supply services	57,555	55,216
State Solicitor's Office - legal services	367	328
Department of Education - uses of Child Parent Centres on school sites and other facilities	172	167
Department of Housing and Works - leasing of accommodation	293	97
PathWest Laboratory Medicine WA - pathology services	8,079	7,530
Total resources received free of charge	66,466	63,338
Total income from State Government	1,176,318	1,068,414

- (a) **Service agreement funding** is recognised as income at fair value in the period in which the Health Service gains control of the funds as appropriated under the Service Agreement with the Department of Health. The Health Service gains control of the appropriated funds at the time those funds are deposited in the bank account or credited to the 'Amounts receivable for services' (holding account) held at the Department of Treasury and Finance.

Being the major income source to fund the net cost of services delivered (as set out in Note 2.2), service agreement funding comprises a cash component and a receivable (asset) component. See Note 6.2 'Amounts Receivable for Services'.

- (i) Included in the Commonwealth component of the service agreement funding are activity based funding and block grant funding received from the Commonwealth Government under the National Health Reform Agreement for services, health teaching, training and research provided by local hospital networks (Health Services). The funding arrangement established under the Agreement requires the Commonwealth Government to make funding payments to the State Pool Account from which distributions to the local hospital networks (Health Services) are made by the Department of Health and Mental Health Commission.
- (b) **Grants from other state government agencies** are recognised as revenue when the Health Service has satisfied its performance obligations under the grants agreement. If there is no performance obligation, revenue will be recognised when the grant is received or receivable.
- (c) **Transfer of assets:** Discretionary transfers of assets and liabilities between State government agencies are reported under Income from State Government. Transfers of assets and liabilities in relation to a restructure of administrative arrangements are recognised as distribution to owners by the transferor and contribution by owners by the transferee under AASB 1004. Other non-discretionary non-reciprocal transfers of assets and liabilities designated as contributions by owners under Treasurer's Instruction 8 are also recognised directly to equity.
- (d) **Resources received free of charge** or for nominal cost, are recognised as revenue at the fair value of those services that can be reliably measured and which would have been purchased if not received as free services. A corresponding expense is recognised for services received (Note 3.3 'Patient support costs' and Note 3.5 'Other supplies and services').

4.2 Patient charges and other fees for services

	2026	2025
	\$000	\$000
Patient charges ^(a)		
Inpatient charges	30,307	28,754
Outpatient charges	4,159	3,819
	34,466	32,573
Other fees for services		
Recoveries from the Pharmaceutical Benefits Scheme ^(b)	44,748	42,090
Clinical services to other health organisations ^(c)	3,472	3,401
Non clinical services to other health organisations ^(c)	716	683
	48,936	46,174
	83,402	78,747

- (a) Patient charges are recognised at a point in time (or over a relatively short period of time) when the services have been provided to patients. As the Health Service is a not-for-profit entity, patient charges have not been determined on a full cost recovery basis.
- (b) Under the Pharmaceutical Benefits Scheme (PBS), the Health Service receives reimbursements from Medicare Australia for PBS-listed medicines dispensed to patients at the Perth Children’s Hospital. Reimbursements are mostly received within the month of claims.
- (c) Revenue is recognised over time for services provided to other health organisations. The Health Service typically satisfies its performance obligations in relation to the fees and charges when the services are performed. The progress towards performance obligations is measured on the basis of resources consumed in the service delivery.

4.3 Grants and contributions

	2026	2025
	\$000	\$000
Perth Children's Hospital Foundation Ltd	7,417	4,196
Channel 7 Telethon Trust	3,359	3,782
The Kids Research Institute Australia	2,893	1,427
Stan Perron Charitable Foundation	2,597	2,764
Angela Wright Bennett Foundation	1,000	167
Icon Clinical Research Pty Ltd	461	-
Murdoch Children's Research Institute	444	365
Parexel International Pty Ltd	416	524
Raine Medical Research Foundation	375	594
Syneos Health Australia Pty Ltd	309	579
Diabetes Australia	296	327
The Royal Australasian College of Physicians	289	196
Monash University	262	199
Toby FCC Ltd	248	-
Edith Cowan University	240	154
Children's Health Queensland Hospital & Health Service	236	300
University Of WA	235	223
Camp Quality	197	161
Premier Research Pty Ltd	195	48
Roche Products Pty Ltd	190	13
University Of Queensland	179	65
Rare Voices Australia Ltd	160	160
Pharmaceutical Research Associates Pty Ltd	134	-
Novo Nordisk Pharmaceuticals Pty Ltd	125	47
Insulet Corporation	125	-
Other ^(a)	1,639	2,824
	24,021	19,115

Where the arrangements are not classified as contracts with customers, operational grants are recognised as income when the Health Service obtains control over the assets comprising the contribution, usually when cash is received. For contracts with customers, operational grants are recognised as revenue either over time or at a point in time, when the specific performance obligations are satisfied. Capital grants are recognised as income when the Health Service achieves milestones specified in the grant agreements.

Key judgements under AASB 15 *Revenue from Contracts with Customers* include determining the timing of revenue from contracts with customers in terms of timing of satisfaction of performance obligations and determining the transaction price and the amounts allocated to performance obligations.

(a) Other - The total of \$1.639 million for 2025-26 consists of the amounts below \$125,000 from individual fund providers.

4.4 Donation revenue

	2026	2025
	\$000	\$000
Perth Children's Hospital Foundation - donations of equipment	2,639	816
Other	373	723
	<u>3,012</u>	<u>1,539</u>

Donations and other bequests are recognised as revenue when cash or assets are received.

4.5 Other revenue

	2026	2025
	\$000	\$000
Pharmaceutical manufacturing activities	2,454	2,283
Rent from commercial tenants	618	588
Expense recoupment from tenants	2,933	3,099
Immunisation services	158	175
Use of hospital facilities by medical practitioners	13	14
Other	524	676
	<u>6,700</u>	<u>6,835</u>

Revenue from pharmaceutical manufacturing activities, immunisation services and other services is recognised when the goods or services are delivered to the customers.

Rent and recoupment of outgoing expenses are received in accordance with the agreements with tenants, and are recognised as revenue on a monthly basis.

5. Key assets

This section includes information regarding the key assets the Health Service utilises to gain economic benefits or provide service potential. The section sets out both the key accounting policies and financial information about the performance of these assets:

	Notes	2026	2025
		\$000	\$000
Property, plant and equipment	5.1	1,415,501	1,368,464
Right-of-use assets	5.2	24,742	26,486
Intangible assets	5.3	<u>4,376</u>	<u>6,888</u>
Total key assets		<u>1,444,619</u>	<u>1,401,838</u>
	Notes	2026	2025
		\$000	\$000
Depreciation and amortisation expense			
Property, plant and equipment	5.1.1	48,207	46,349
Right-of-use assets	5.2	3,342	3,261
Intangible assets	5.3.1	<u>2,512</u>	<u>2,934</u>

- (a) Revaluation increment is recorded in the asset revaluation reserve, except to the extent that any increment reverses a revaluation decrement of the same class of assets previously recognised as an expense. Revaluation decrement is recognised as an expense, except to the extent of any balance existing in the asset revaluation reserve in respect of that class of assets. In 2025-26, revaluation increment of \$0.965 million for land is recognised as an income and revaluation increment of \$4.552 million for land is recognised in the asset revaluation reserve. A revaluation increment of \$65.420 million for buildings is recognised. During the year, the aluminium composite panel (ACP) cladding at the Perth Children’s Hospital has been identified as requiring remediation, resulting in the recognition of a provision of \$20.221 million that is capitalised to buildings (see Note 6.8 ‘Other liabilities’). Accordingly, the net increase recognised for buildings in the asset revaluation reserve is \$45.199 million (see Note 9.13 ‘Equity’).
- (b) With the approval of the Minister for Health, the Department of Planning, Lands and Heritage (DPLH) transferred the additional adjacent land (\$1.687 million) to the Health Service for amalgamation with the Hospice Reserve site in May 2026. The Health Service has accounted for the transfer as a contribution by owner.
- (c) Transfers made from clearing accounts to work in progress accounts with respect to balances as at 30 June 2025.

Notes to the financial statements for the year ended 30 June 2026

Accumulated impairment losses	-	-	-	-	-	-	-	-	-	-	-

- (a) Revaluation increment is recorded in the asset revaluation reserve, except to the extent that any increment reverses a revaluation decrement of the same class of assets previously recognised as an expense. Revaluation decrement is recognised as an expense, except to the extent of any balance existing in the asset revaluation reserve in respect of that class of assets. In 2024-25, revaluation increment of \$0.920 million for land is recognised as an income and revaluation increment of \$196.914 million for buildings is recognised in the asset revaluation reserve.
- (b) Of this amount, \$133.643 million relates to professional and project management fees, which are now included in the value of current use building assets under the current replacement cost basis as required by the prospective application of AASB 2022-10 *Amendments to Australian Accounting Standards – Fair Value Measurement of Non-Financial Assets of Not-for-Profit Public Sector Entities*.

5.1 Property, plant and equipment (cont.)

Initial recognition

Items of property, plant and equipment, costing \$5,000 or more are measured initially at cost. Where an asset is acquired for no cost or significantly less than fair value, the cost is valued at its fair value at the date of acquisition. Items of property, plant and equipment costing less than \$5,000 are immediately expensed direct to the Statement of Comprehensive Income (other than where they form part of a group of similar items which are significant in total).

The cost of a leasehold improvement is capitalised and depreciated over the shorter of the remaining term of the lease or the estimated useful life of the leasehold improvement.

Subsequent measurement

Subsequent to initial recognition of an asset, the revaluation model is used for the measurement of land and buildings.

Land is carried at fair value. Buildings are carried at fair value less accumulated depreciation and accumulated impairment losses.

All other property, plant and equipment are stated at historical cost less accumulated depreciation and accumulated impairment losses.

When buildings are revalued, the accumulated depreciation is eliminated against the gross carrying amount of the asset and the net amount restated to the revalued amount.

Land and buildings are independently valued annually by the Western Australian Land Information Authority (Landgate). The effective date is at 1 July 2025, with the valuations performed during the year ended 30 June 2026 and recognised at 30 June 2026.

In addition, for buildings under the current replacement cost basis, estimated professional and project management fees are included in the valuation of current use assets as required by AASB 2022-10 *Amendments to Australian Accounting Standards – Fair Value Measurement of Non-Financial Assets of Not-for-Profit Public Sector Entities*.

In undertaking the revaluation, fair value was determined by reference to market values for land: \$1.062 million (2025: \$0.870 million) and buildings: \$0.308 million (2025: \$0.250 million). For the remaining balance, fair value of buildings was determined on the basis of current replacement cost and fair value of land was determined on the basis of comparison with market evidence for land with low level utility (high restricted use land). These valuations are undertaken annually to ensure that the carrying amount of the assets does not differ materially from their fair value at the end of the reporting period.

Revaluation model:

(a) Fair Value where market-based evidence is available:

The fair value of land and buildings is determined on the basis of current market values determined by reference to recent market transactions.

5.1 Property, plant and equipment (cont.)

(b) Fair value in the absence of market-based evidence:

Fair value of land and buildings is determined on the basis of existing use where buildings are specialised or where land is restricted.

Existing use buildings: Fair value is determined by reference to the cost of replacing the remaining future economic benefits embodied in the asset, i.e. the current replacement cost.

Restricted use land: Fair value is determined by comparison with market evidence for land with similar approximate utility (high restricted use land) or market value of comparable unrestricted land (low restricted use land).

Significant assumptions and judgements

The most significant assumptions and judgements in estimating fair value are made in assessing whether to apply the existing use basis to assets and in determining estimated economic life. Professional judgement by the valuer is required where the evidence does not provide a clear distinction between market type assets and existing use assets.

A number of buildings that are located on the land of local government agencies have been recognised in the financial statements. The Health Service believes that, based on past experience, its occupancy in these buildings will continue to the end of their useful lives.

5.1.1 Depreciation and impairment charges for the period

	Notes	2026 \$000	2025 \$000
Depreciation			
Buildings	5.1	30,167	25,319
Site infrastructure	5.1	479	479
Leasehold improvement	5.1	1,551	1,254
Medical equipment	5.1	12,614	14,748
Computer equipment	5.1	589	1,709
Furniture and fittings	5.1	718	716
Motor vehicles, other plant and equipment	5.1	2,089	2,124
Total depreciation for the period		48,207	46,349

An impairment of \$20.221 million has been recognised in the asset revaluation reserves in respect of the aluminium composite panel (ACP) cladding at the Perth Children’s Hospital. The ACP cladding is identified as requiring remediation, resulting in an impairment of the affected building component. Refer Note 6.8 ‘Other liabilities’ for details of the related remediation provision.

As at 30 June 2026, there were no other indications of impairments.

5.1.1 Depreciation and impairment charges for the period (cont.)

Finite useful lives

All property, plant and equipment having a limited useful life are systematically depreciated over their estimated useful lives in a manner that reflects the consumption of their future economic benefits. The exceptions to this rule include assets held for sale and land.

Depreciation is generally calculated on a straight line basis, at rates that allocate the asset's value, less any estimated residual value, over its estimated useful life.

Typical estimated useful lives for the different asset classes for current and prior years are included in the table below:

Buildings	50 years
Site infrastructure	50 years
Leasehold improvements	Term of the lease
Computer equipment	5 to 8 years
Furniture and fittings	5 to 20 years
Motor vehicles	8 to 10 years
Medical equipment	3 to 18 years
Other plant and equipment	4 to 20 years

Land and artworks, which are considered to have an indefinite useful life, are not depreciated. Depreciation is not recognised in respect of these assets because their service potential has not, in any material sense, been consumed during the reporting period.

The estimated useful lives, residual values and depreciation method are reviewed at the end of each annual reporting period, and adjustments are made where appropriate.

Impairment

Non-financial assets, including items of plant and equipment, are tested for impairment whenever there is an indication that the asset may be impaired. Where there is an indication of impairment, the recoverable amount is estimated. Where the recoverable amount is less than the carrying amount, the asset is considered impaired and is written down to the recoverable amount and an impairment loss is recognised.

Where an asset measured at cost is written down to its recoverable amount, an impairment loss is recognised through profit or loss.

Where a previously revalued asset is written down to its recoverable amount, the loss is recognised as a revaluation decrement through other comprehensive income.

5.1.1 Depreciation and impairment charges for the period (cont.)

Impairment (cont.)

As the Health Service is a not-for-profit entity, the recoverable amount of regularly revalued specialised assets is anticipated to be materially the same as fair value.

If there is an indication that there has been a reversal in impairment, the carrying amount shall be increased to its recoverable amount. However, this reversal should not increase the asset's carrying amount above what would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised in prior years.

The risk of impairment is generally limited to circumstances where an asset's depreciation is materially understated, where the replacement cost is falling or where there is a significant change in useful life. Each relevant class of assets is reviewed annually to verify that the accumulated depreciation/amortisation reflects the level of consumption or expiration of the asset's future economic benefits and to evaluate any impairment risk from declining replacement costs.

5.1.2 Gain/(loss) on disposal of non-current assets

The Health Service recognised the following gains on disposal of non-current assets:

	2026	2025
	\$000	\$000
Carrying amount of non-current assets disposed:		
Property, plant and equipment	(219)	(107)
Proceeds from disposal of non-current assets:		
Property, plant and equipment	9	210
Net gain/(loss) on disposal of non-current assets	(210)	103

Realised and unrealised gains are usually recognised on a net basis.

Gains and losses on the disposal of non-current assets are presented by deducting from the proceeds on disposal the carrying amount of the asset and related selling expenses.

5.2 Right-of-use assets

	Buildings	Vehicles	Total
	\$000	\$000	\$000
Year ended 30 June 2026			
1 July 2025			
Gross carrying amount	33,334	2,772	36,106
Accumulated depreciation	(8,247)	(1,373)	(9,620)
Carrying amount at start of period	25,087	1,399	26,486
Additions	820	744	1,564
Adjustments	-	34	34
Depreciation	(2,797)	(545)	(3,342)
Carrying amount at 30 June 2026	23,110	1,632	24,742
Gross carrying amount	33,837	3,013	36,850
Accumulated depreciation	(10,727)	(1,381)	(12,108)

	Buildings	Vehicles	Total
	\$000	\$000	\$000
Year ended 30 June 2025			
1 July 2024			
Gross carrying amount	15,322	2,518	17,840
Accumulated depreciation	(6,494)	(1,306)	(7,800)
Carrying amount at start of period	8,828	1,212	10,040
Additions	19,008	603	19,611
Adjustments	-	96	96
Depreciation	(2,749)	(512)	(3,261)
Carrying amount at 30 June 2025	25,087	1,399	26,486
Gross carrying amount	33,334	2,772	36,106
Accumulated depreciation	(8,247)	(1,373)	(9,620)

5.2 Right-of-use assets (cont.)

The Health Service has leases for vehicles, office and clinical accommodations.

The Health Service has also entered into Memorandum of Understanding Agreements (MOU) with the Department of Housing and Works for the leasing of office accommodation. These are not recognised under AASB 16 because of substitution rights held by the Department of Housing and Works and are accounted for as an expense as incurred.

The Health Service recognises leases as right-of-use assets and associated lease liabilities in the Statement of Financial Position.

The corresponding lease liabilities in relation to these right-of-use assets have been disclosed in Note 7.1.

Initial recognition

At the commencement date of the lease, the Health Service right-of-use assets are measured at cost including the following:

- the amount of the initial measurement of lease liability;
- any lease payments made at or before the commencement date less any lease incentives received;
- any initial direct costs; and
- restoration costs, including dismantling and removing the underlying asset.

The Health Service has elected not to recognise right-of-use assets and lease liabilities for short-term leases (with a lease term of 12 months or less) and low value leases (with an underlying value of \$5,000 or less). Lease payments associated with these leases are expensed over a straight-line basis over the lease term.

Subsequent Measurement

The cost model is applied for subsequent measurement of right-of-use assets, requiring the asset to be carried at cost less any accumulated depreciation and accumulated impairment losses and adjusted for any re-measurement of lease liability.

5.2 Right-of-use assets (cont.)

Depreciation and impairment of right-of-use assets

Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the underlying assets. If ownership of the leased asset transfers to the Health Service at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

Right-of-use assets are tested for impairment when an indication of impairment is identified. The policy in connection with testing for impairment is outlined in Note 5.1.1.

The following amounts relating to leases have been recognised in the Statement of Comprehensive Income:

	Notes	2026 \$000	2025 \$000
Depreciation expense of right-of-use assets	5.2	3,342	3,261
Lease interest expense	7.2	1,724	1,708
Low-value leases		2	1
Total amount recognised in the Statement of Comprehensive Income		5,068	4,970

The total cash outflow for leases in 2026 was \$4.738 million (2025: \$4.402 million). As at 30 June 2026, there were no indications of impairment to right-of-use assets.

5.3 Intangible assets

Computer software	2026 \$000	2025 \$000
Carrying amount at start of period	6,888	9,822
Amortisation expense (Note 5.3.1)	(2,512)	(2,934)
Carrying amount at 30 June	4,376	6,888
Gross carrying amount	55,638	55,638
Accumulated amortisation	(51,262)	(48,750)
	4,376	6,888

Initial recognition

Intangible assets are initially recognised at cost. For assets acquired at no cost or for nominal cost, the cost is their fair value at the date of acquisition.

Acquired and internally generated intangible assets costing \$5,000 or more that comply with the recognition criteria of AASB 138.57 *Intangible Assets*, are capitalised.

Costs incurred below these thresholds are immediately expensed directly to the Statement of Comprehensive Income.

An internally generated intangible asset arising from development (or from the development phase of an internal project) is recognised if, and only if, all of the following are demonstrated:

- (a) The technical feasibility of completing the intangible asset so that it will be available for use;
- (b) An intention to complete the intangible asset and use it;
- (c) The ability to use the intangible asset;
- (d) The intangible asset will generate probable future economic benefit;
- (e) The availability of adequate technical, financial and other resources to complete the development and to use the intangible asset;
- (f) The ability to measure reliably the expenditure attributable to the intangible asset during its development.

Costs incurred in the research phase of a project are immediately expensed.

Software that is an integral part of the related hardware is recognised as property, plant and equipment. Software that is not an integral part of the related hardware is recognised as an intangible asset.

Subsequent measurement

The cost model is applied for subsequent measurement of intangible assets, requiring the assets to be carried at cost less any accumulated amortisation and accumulated impairment losses.

5.3.1 Amortisation and impairment

Charges for the period

<u>Amortisation</u>	2026 \$000	2025 \$000
Computer software	2,512	2,934
Total amortisation for the period	2,512	2,934

The Health Service held no goodwill or intangible assets with an indefinite useful life during the reporting period. At the end of the reporting period there were no intangible assets not yet available for use.

Amortisation of finite life intangible assets is calculated on a straight line basis at rates that allocate the asset’s value over its estimated useful life. All intangible assets controlled by the Health Service have a finite useful life and zero residual value. Estimated useful lives are reviewed annually.

The estimated useful lives for each class of intangible asset are:

Computer software ^(a)	8 to 10 years
----------------------------------	---------------

(a) Software that is not integral to the operation of any related hardware.

Impairment

Intangible assets with finite useful lives are tested for impairment annually or when an indication of impairment is identified. The policy in connection with testing for impairment is outlined in Note 5.1.1.

As at 30 June 2026, there were no indications of impairment to intangible assets.

6. Other assets and liabilities

This section sets out those assets and liabilities that arose from the Health Service’s controlled operations and includes other assets utilised for economic benefits and liabilities incurred during normal operations:

	Notes	2026 \$000	2025 \$000
Receivables	6.1	51,241	35,291
Amount receivable for services	6.2	677,683	628,351
Inventories	6.3	6,810	4,980
Other current assets	6.4	2,296	1,119
Payables	6.5	53,704	51,801
Contract liabilities	6.6	1,106	796
Capital grant liabilities	6.7	3,457	1,245
Other liabilities	6.8	20,319	100

6.1 Receivables

	2026	2025
	\$000	\$000
Current		
Patient fee debtors	9,622	6,958
GST receivable	603	668
Receivable from North Metropolitan Health Service	436	1,426
Other receivables	9,454	6,560
Allowance for impairment of receivables	(4,007)	(3,463)
Accrued revenue	8,261	4,270
	24,369	16,419
Non-current		
Accrued salaries account ^(a)	26,872	18,872
	26,872	18,872
Total Receivables	51,241	35,291

(a) Funds transferred to Department of Treasury and Finance for the purpose of meeting the 27th pay in a reporting period that generally occurs every 11 years. This account is classified as non-current except for the year before the 27th pay year.

Patient fee debtors and other receivables are recognised at original invoice amount less any allowances for uncollectible amounts (i.e. impairment). The carrying amounts of net patient fee debtors and other receivables are equivalent to fair value as it is due for settlement within 30 days.

The Health Service recognises an allowance for expected credit losses (ECLs) on patient fee debtors, measured at the lifetime expected credit losses at each reporting date. The Health Service has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment. Please refer to Note 3.6 for the amount of ECLs expensed in this financial year.

The Health Service does not hold any collateral or other credit enhancements as security for receivables.

Accrued salaries account contains amounts paid annually into the Treasurer’s special purpose account. It is restricted for meeting the additional cash outflow for employee salary payments in reporting periods with 27 pay days instead of the normal 26. No interest is received on this account.

6.1 Receivables (cont.)

Accounting procedure for Goods and Services Tax

Rights to collect amounts receivable from the Australian Taxation Office (ATO) and responsibilities to make payments for GST have been assigned to the Department of Health. This accounting procedure was a result of application of the grouping provisions of “*A New Tax System (Goods and Services Tax) Act 1999*” whereby the Department of Health became the Nominated Group Representative (NGR) for the GST Group as from 1 July 2012. The entities in the GST group include the Department of Health, Child and Adolescent Health Service, East Metropolitan Health Service, North Metropolitan Health Service, South Metropolitan Health Service, WA Country Health Service, Health Support Services, PathWest Laboratory Medicine WA, Queen Elizabeth II Medical Centre Trust, Mental Health Commission, and Health and Disability Services Complaints Office.

GST receivables on accrued expenses are recognised by the Health Service. Upon the receipt of tax invoices, GST receivables for the GST group are recorded in the accounts of the Department of Health.

6.1.1 Movement of the allowance for impairment of receivables

	2026	2025
	\$000	\$000
Reconciliation of changes in the allowance for impairment of receivables:		
Balance at start of period	3,463	3,891
Expected credit losses expense	635	630
Amount written off during the period	(91)	(1,058)
Balance at end of period	4,007	3,463

The collectability of receivables is reviewed on an ongoing basis and any receivables identified as uncollectible are written-off against the allowance account.

6.2 Amounts receivable for services (Holding Account)

	2026 \$000	2025 \$000
Current	-	-
Non-Current	677,683	628,351
	<u>677,683</u>	<u>628,351</u>

The Health Service receives service appropriations from the State Government via the Department of Health, partly in cash and partly as a non-cash asset. Amounts receivable for services represent the non-cash component and it is restricted in that it can only be used for asset replacement or payment of leave liability.

Amounts receivable for services are considered not impaired (i.e. there is no expected credit loss for the holding account).

Subject to the State Government’s approval, the receivable is accessible on the emergence of the cash funding requirement to cover the payments for leave entitlements and asset replacement.

6.3 Inventories

	2026 \$000	2025 \$000
Current		
Pharmaceutical stores - at cost	6,810	4,980

Inventories are measured at the lower of cost and net realisable value. Costs are assigned on a weighted average cost basis.

Inventories not held for resale are measured at cost unless they are no longer required, in which case they are measured at net realisable value.

6.4 Other current assets

	2026 \$000	2025 \$000
Current		
Prepayments	2,282	1,100
Unearned patient charges	14	19
	<u>2,296</u>	<u>1,119</u>

Other non-financial assets include prepayments which represent payments in advance of receipt of goods or services or that part of expenditure made in one accounting period covering a term extending beyond that period.

6.5 Payables

	2026 \$000	2025 \$000
Current		
Trade payables	5,965	8,841
Other payables	44	42
Accrued expenses	12,380	11,835
Accrued salaries	35,315	31,083
	<u>53,704</u>	<u>51,801</u>

Payables are recognised at the amounts payable when the Health Service becomes obliged to make future payments as a result of a purchase of assets or services.

The carrying amount is equivalent to fair value, as settlement is generally within 30 days.

Accrued salaries represent the amount due to employees but unpaid at the end of the reporting period. Accrued salaries are settled within a fortnight of the reporting period end. The Health Service considers the carrying amount of accrued salaries to be equivalent to its fair value.

6.6 Contract liabilities

	2026 \$000	2025 \$000
Reconciliation of changes in contract liabilities		
Opening balance	796	472
Additions	1,213	1,359
Revenue recognised in the reporting period	(903)	(1,035)
Total contract liabilities at end of period	<u>1,106</u>	<u>796</u>
Current	1,106	796
Non-current	-	-

Contract liabilities are the values of payments received for services yet to be provided to the customers at the reporting date. Refer to Note 4.3 for details of the revenue recognition policy.

The Health Service expects to satisfy the performance obligations within the next 12 months.

6.7 Capital grant liabilities

	2026 \$000	2025 \$000
Reconciliation of changes in capital grant liabilities		
Opening balance	1,245	101
Additions	3,397	1,235
Revenue recognised in the reporting period	(1,185)	(91)
Total capital grant liabilities at end of period	3,457	1,245
Current	3,457	1,245
Non-current	-	-

The Health Service recognises a capital grant liability for the excess of the initial carrying amount of a financial asset received in a transfer to enable the acquisition or construction of a recognisable non-financial asset under its control.

The Health Service recognises income in profit or loss as the obligations of the capital grant liability are satisfied under the transfer. Refer to Note 4.3 for the details of revenue recognition policy.

The Health Service expects to satisfy the obligations within the next 12 months.

6.8 Other liabilities

	2026 \$000	2025 \$000
Current		
Paid parental leave scheme	98	100
Make good provision ^(a)	6,261	-
Total current	6,359	100
Non-current		
Make good provision ^(a)	13,960	-
Total non-current	13,960	-
Total other liabilities at end of period	20,319	100

(a) A provision of \$20.221 million has been recognised for the estimated cost of remediating the aluminium composite panel (ACP) cladding at the Perth Children’s Hospital. The provision represents management’s estimate of the expenditure required to complete the remediation works.

7. Financing

This section sets out the material balances and disclosures associated with the financing and cashflows of the Health Service.

	Notes
Lease liabilities	7.1
Finance costs	7.2
Cash and cash equivalents	7.3
Reconciliation of cash	7.3.1
Reconciliation of net cost of services to net cash flows used in operating activities	7.3.2
Reconciliation of cash flows from State Government	7.3.3
Capital commitments	7.4

7.1 Lease liabilities

	2026 \$000	2025 \$000
Current	3,008	2,914
Non-current	27,893	29,444
Total lease liabilities ^(a)	30,901	32,358

(a) The 2026 total lease liabilities include \$29.176 million (2025: \$30.835 million) for leased buildings and \$1.723 million (2025: \$1.521 million) for leased vehicles.

Initial measurement

The Health Service measures a lease liability, at the commencement date, at the present value of the lease payments that are not paid at that date. The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, the Health Service uses the incremental borrowing rate provided by Western Australia Treasury Corporation.

Lease payments included by the Health Service as part of the present value calculation of lease liability include:

- Fixed payments (including in-substance fixed payments), less any lease incentives receivable;
- Variable lease payments that depend on an index or a rate initially measured using the index or rate as at the commencement date;
- Amounts expected to be payable by the lessee under residual value guarantees;
- The exercise price of purchase options (where these are reasonably certain to be exercised);
- Payments for penalties for terminating a lease, where the lease term reflects the lessee exercising an option to terminate the lease.

The interest on the lease liability is recognised in profit or loss over the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. Lease liabilities do not include any future changes in variable lease payments (that depend on an index or rate) until they take effect, in which case the lease liability is reassessed and adjusted against the right-of-use asset.

Periods covered by extension or termination options are only included in the lease term by the Health Service if the lease is reasonably certain to be extended (or not terminated).

Variable lease payments, not included in the measurement of lease liability, are recognised by the Health Service in profit or loss in the period in which the condition that triggers the payment occurs.

This section should be read in conjunction with Note 5.2.

7.1 Lease liabilities (cont.)

Subsequent Measurement

Lease liabilities are measured by increasing the carrying amount to reflect interest on the lease liabilities; reducing the carrying amount to reflect the lease payments made; and remeasuring the carrying amount at amortised cost, subject to adjustments to reflect any reassessment or lease modifications.

Significant assumptions and judgements

Judgements have been made in the identification of leases within contracts, assessment of lease terms by considering the reasonable certainty in exercising extension or termination options, and identification of appropriate rate to discount the lease payments.

7.2 Finance costs

	2026 \$000	2025 \$000
Lease interest expense	1,724	1,708
	1,724	1,708

Finance costs are recognised as expenses in the period in which they are incurred.

Lease interest expense is the interest component of lease liability repayments.

7.3 Cash and cash equivalents

7.3.1 Reconciliation of cash

	2026 \$000	2025 \$000
Cash and cash equivalents	18,803	17,730
Restricted cash and cash equivalents		
<u>Current</u>		
Capital work projects	4,806	5,091
Mental Health Commission Funding ^(a)	8,011	2,302
Restricted cash assets held for other specific purposes ^(b)	25,921	20,709
Total restricted cash and cash equivalents	38,738	28,102
Balance at end of period	57,541	45,832

Restricted cash and cash equivalents are assets of which the uses are restricted by specific legal or other externally imposed requirements.

- (a) The unspent funds from the Mental Health Commission are committed to the provision of mental health services.
- (b) The specific purposes include medical research grants, donations for the benefits of patients, medical education, scholarships, capital projects, employee contributions and staff benevolent funds.

For the purpose of the Statement of Cash Flows, cash and cash equivalents and restricted cash and cash equivalents assets comprise cash on hand and short-term deposits with original maturities of three months or less that are readily convertible to a known amount of cash and which are subject to insignificant risk of changes in value.

7.3.2 Reconciliation of net cost of services to net cash flows used in operating activities

	Notes	2026 \$000	2025 \$000
Net cost of services (Statement of Comprehensive Income)		(1,158,582)	(1,090,135)
<u>Non-cash items:</u>			
Expected credit losses expense	3.6	635	630
Write-off of inventory		(8)	11
Depreciation and amortisation expenses	5	54,061	52,544
Assets received from other Health Services expensed		-	197
Asset revaluation increments	5.1	(965)	(920)
Loss on disposal of non-current assets	5.1.2	210	(103)
Write-off of plant and equipment	3.6	-	31
Interest capitalised		24	20
Donations of assets		(2,110)	(336)
Resources received free of charge	4.1	66,466	63,338
<u>(Increase)/decrease in assets:</u>			
Receivables		(8,585)	(3,401)
Inventories		(1,822)	368
Other current assets		(1,313)	222
<u>Increase/(Decrease) in liabilities:</u>			
Payables		1,856	5,800
Current provisions		9,587	17,459
Non-current provisions		791	9,764
Grant liabilities		2,212	1,144
Contract liabilities		310	324
Other current liabilities		(2)	(4)
Net cash used in operating activities (Statement of Cash Flows)		(1,037,235)	(943,047)

7.3.3 Reconciliation of cash flows from State Government

	2026 \$000	2025 \$000
Service agreement funding - State	775,211	697,500
Service agreement funding - Commonwealth	212,823	197,838
Grants from other state government agencies	117,861	105,525
Services provided to other government agencies	3,957	3,945
Capital appropriation credited directly to Contributed equity (refer Note 9.13)	20,040	15,701
	1,129,892	1,020,509
<u>Less notional cash flows:</u>		
Accrual appropriations	(49,332)	(47,216)
Cash Flows from State Government as per Statement of Cash Flows	1,080,560	973,293

At the end of the reporting period, the Health Service had fully drawn on all financing facilities, details of which are disclosed in the financial statements.

7.4 Capital commitments

	2026 \$000	2025 \$000
Capital expenditure commitments, being contracted capital expenditure additional to the amounts reported in the financial statements are payable as follows:		
Within 1 year	8,095	5,389
Later than 1 year, and not later than 5 years	1,862	5,773
Later than 5 years	-	-
	9,957	11,162

Amounts presented for capital expenditure commitments are GST inclusive.

8. Risks and Contingencies

This note sets out the key risk management policies and measurement techniques of the Health Service.

	Notes
Financial risk management	8.1
Contingent assets	8.2.1
Contingent liabilities	8.2.2
Fair value measurements	8.3

8.1 Financial risk management

Financial instruments held by the Health Service are cash and cash equivalents, restricted cash and cash equivalents, lease liabilities, receivables and payables. The Health Service has limited exposure to financial risks. The Health Service's overall risk management program focuses on managing the risks identified below.

(a) Summary of risks and risk management

Credit risk

Credit risk arises when there is the possibility of the Health Service's receivables defaulting on their contractual obligations resulting in financial loss to the Health Service.

The maximum exposure to credit risk at the end of the reporting period in relation to each class of recognised financial assets is the gross carrying amount of those assets inclusive of any allowance for impairment as shown in the tables at Note 8.1(c) 'Credit risk exposure' and Note 6.1 'Receivables'.

Credit risk associated with the Health Service's financial assets is generally confined to patient fee debtors and other receivables (see Note 6.1). The main receivable of the Health Service is the amounts receivable for services (holding account). For receivables other than government agencies and patient fee debtors, the Health Service trades only with recognised, creditworthy third parties. The Health Service has policies in place to ensure that sales of products and services are made to customers with an appropriate credit history. In addition, receivable balances are monitored on an ongoing basis with the result that the Health Service's exposure to bad debts is minimised. At the end of the reporting period, there were no significant concentrations of credit risk.

All debts are individually reviewed, on a timely basis at 30, 60, 90 and 120 days. In a circumstance where a third party is responsible for payment, or there are legal considerations, payment of accounts can be delayed considerably. Unpaid debts are referred to an external debt collection service within six months of the accounts being raised.

Allowance for impairment of financial assets is calculated based on objective evidence such as observable data indicating changes in client credit ratings.

Liquidity risk

Liquidity risk arises when the Health Service is unable to meet its financial obligations as they fall due. The Health Service is exposed to liquidity risk through its normal course of operations.

The Health Service has appropriate procedures to manage cash flows including drawdowns of appropriations by monitoring forecast cash flows to ensure that sufficient funds are available to meet its commitments.

Market risk

Market risk is the risk that changes in market prices such as foreign exchange rates and interest rates will affect the Health Service's income or the value of its holdings of financial instruments. The Health Service does not trade in foreign currency and is not materially exposed to other price risks. The Health Service's exposure to market risk for changes in interest rates relates primarily to the lease liabilities.

8.1 Financial risk management (cont.)

(b) Categories of financial instruments

The carrying amounts of each of the following categories of financial assets and financial liabilities at the end of the reporting period are:

	2026 \$000	2025 \$000
<u>Financial Assets</u>		
Cash and cash equivalents	18,803	17,730
Restricted cash and cash equivalents	38,738	28,102
Financial assets at amortised cost ^(a)	728,321	662,974
	<u>785,862</u>	<u>708,806</u>
<u>Financial Liabilities</u>		
Financial liabilities measured at amortised cost	84,605	84,159
	<u>84,605</u>	<u>84,159</u>

(a) The amount of financial assets at amortised cost excludes GST recoverable from ATO (statutory receivable).

(c) Credit risk exposure

The following table details the credit risk exposure on the Health Service's receivables using a provision matrix.

	Days past due						
	Total \$000	Current \$000	31-60 days \$000	61-90 days \$000	91-180 days \$000	181-365 days \$000	>1 year \$000
30 June 2026							
Expected credit loss rate	20%	2%	9%	7%	19%	33%	65%
Estimated total gross carrying amount	19,684	8,760	1,688	1,401	2,097	1,631	4,107
Expected credit losses	(4,008)	(177)	(145)	(104)	(399)	(533)	(2,650)
30 June 2025							
Expected credit loss rate	24%	2%	8%	12%	31%	59%	75%
Estimated total gross carrying amount	14,406	6,601	1,673	949	1,505	721	2,957
Expected credit losses	(3,465)	(125)	(132)	(117)	(464)	(422)	(2,205)

8.1 Financial risk management (cont.)

(d) Liquidity Risk and Interest Rate Exposure

The following table details the Health Service’s interest rate exposure and the contractual maturity analysis of financial assets and financial liabilities. The maturity analysis section includes interest and principal cash flows. The interest rate exposure section analyses only the carrying amounts of each item.

Interest rate exposure and maturity analysis of financial assets and financial liabilities

	Weighted average effective interest rate %	Carrying amount \$000	Interest rate exposure			Nominal Amount \$000	Maturity dates			
			Fixed interest rate \$000	Variable interest rate \$000	Non- interest bearing \$000		Up to 3 months \$000	3 months to 1 year \$000	1-5 years \$000	More than 5 years \$000
2026										
<u>Financial Assets</u>										
Cash and cash equivalents		18,803	-	-	18,803	18,803	18,803	-	-	-
Restricted cash and cash equivalents		38,738	-	-	38,738	38,738	38,738	-	-	-
Receivables ^(a)		50,638	-	-	50,638	50,638	23,766	-	26,872	-
Amounts receivable for services		677,683	-	-	677,683	677,683	-	-	-	677,683
		785,862	-	-	785,862	785,862	81,307	-	26,872	677,683
<u>Financial Liabilities</u>										
Payables		53,704	-	-	53,704	53,704	53,704	-	-	-
Lease liabilities	5.45%	30,901	30,901	-	-	48,788	1,173	3,444	13,970	30,201
		84,605	30,901	-	53,704	102,492	54,877	3,444	13,970	30,201

(a) The amount of receivables excludes the GST recoverable from ATO (statutory receivable).

8.1 Financial risk management (cont.)

Interest rate exposure and maturity analysis of financial assets and financial liabilities

	Weighted average effective interest rate %	Carrying amount \$000	Interest rate exposure			Nominal Amount \$000	Maturity dates			
			Fixed interest rate \$000	Variable interest rate \$000	Non- interest bearing \$000		Up to 3 months \$000	3 months to 1 year \$000	1-5 years \$000	More than 5 years \$000
2025										
<u>Financial Assets</u>										
Cash and cash equivalents		17,730	-	-	17,730	17,730	17,730	-	-	-

		708,806	-	-	708,806	708,806	61,583	-	18,872	628,351
<u>Financial Liabilities</u>										
Payables		51,801	-	-	51,801	51,801	51,801	-	-	-
Lease liabilities	7.88%	32,358	32,358	-	-	51,525	1,112	3,327	14,687	32,399
		84,159	32,358	-	51,801	103,326	52,913	3,327	14,687	32,399

(a) The amount of receivables excludes the GST recoverable from ATO (statutory receivable).

8.2 Contingent assets and liabilities

Contingent assets and contingent liabilities are not recognised in the Statement of Financial Position but are disclosed and, if quantifiable, are measured at the best estimate. Contingent assets and liabilities are presented inclusive of GST receivable or payable respectively.

8.2.1 Contingent assets

At the reporting date, the Health Service is not aware of any contingent assets.

8.2.2 Contingent liabilities

Casual long service leave

Under the *Long Service Leave Act 1958* casual employees who have been employed for more than ten years and meet continuous service requirements are entitled to long service leave. The Department of Health, in conjunction with Health Support Services, is assessing the impact of continuity of service on the Health Service's casual long service leave liability. As at June 2026, the Health Service has elected not to record a liability in respect of casual long service leave until this assessment is complete as the financial effect cannot presently be reliably estimated.

Litigation in progress

The Health Service does not have any pending litigation that are not recoverable from RiskCover insurance at the reporting date.

Contaminated sites

Under the *Contaminated Sites Act 2003*, the Health Service is required to report known and suspected contaminated sites to the Department of Water and Environmental Regulation (DWER). In accordance with the Act, DWER classifies these sites on the basis of the risk to human health, the environment and environmental values. Where sites are classified as contaminated – remediation required or possibly contaminated – investigation required, the Health Service may have a liability in respect of investigation or remediation expenses.

At the reporting date, the Health Service does not have any suspected contaminated sites reported under the Act.

8.3 Fair value measurements

AASB 13 '*Fair Value Measurement*' requires disclosure of fair value measurement by level of the following fair value measurement hierarchy:

- a) quoted prices (unadjusted) in active markets for identical assets (level 1);
- b) input other than quoted prices included within level 1 that are observable for the asset either directly or indirectly (level 2); and
- c) inputs for the asset that are not based on observable market data (unobservable input) (level 3).

The following table represents the Health Service's assets measured at fair value:

			Level 1	Level 2	Level 3	Fair value at end of period
2026	Notes		\$000	\$000	\$000	\$000
Land	5.1					
Residential		-	1,062	-	1,062	
Specialised		-	-	36,357	36,357	
Buildings	5.1					
Residential		-	308	-	308	
Specialised		-	-	1,282,107	1,282,107	
		-	1,370	1,318,464	1,319,834	
2025						
Land	5.1					
Residential		-	870	-	870	
Specialised		-	-	29,345	29,345	
Buildings	5.1					
Residential		-	250	-	250	
Specialised		-	-	1,246,032	1,246,032	
		-	1,120	1,275,377	1,276,497	

There were no transfers between Levels 1, 2 or 3 during the current and previous periods.

8.3 Fair value measurements (cont.)

Valuation processes

The Health Service obtains independent valuations of land and buildings from the Western Australian Land Information Authority (Landgate) annually.

There were no changes in valuation techniques during the period.

Transfers in and out of a fair value level are recognised on the date of the event or change in circumstances that caused the transfer. Transfers are generally limited to assets newly classified as non-current assets held for sale as Treasurer's instructions require valuations of land and buildings to be categorised within Level 3 where the valuations will utilise significant Level 3 inputs on a recurring basis.

Valuation techniques to derive Level 2 fair values

Level 2 fair values of land and buildings (converted residential properties) are derived using the market approach. This approach provides an indication of value by comparing the asset with identical or similar properties for which price information is available. Analysis of comparable sales information and market data provides the basis for fair value measurement.

The best evidence of fair value is current prices in an active market for similar properties. Where such information is not available, Landgate consider current prices in an active market for properties of different nature or recent prices of similar properties in less active markets, and adjust the valuation for differences in property characteristics and market conditions.

For properties with buildings and other improvements, the land value is measured by comparison and analysis of open market transactions on the assumption that the land is in a vacant and marketable condition. The amount determined is deducted from the total property value and the residual amount represents the building value.

The Health Service's residential properties consist of residential buildings that have been re-configured to be used as health centres or clinics.

8.3 Fair value measurements (cont.)

Fair value measurements using significant unobservable inputs (Level 3)

	Land \$000	Buildings \$000
2026		
Fair value at start of period	29,345	1,246,032
Additions	1,687	880
Revaluation increments recognised in Profit or Loss	965	-
Revaluation increments recognised in Other Comprehensive Income	4,360	65,362
Depreciation expense	-	(30,167)
Fair Value at end of period	36,357	1,282,107
2025		
Fair value at start of period	28,555	1,070,299
Additions	-	4,298
Revaluation increments recognised in Profit or Loss	790	-
Revaluation increments recognised in Other Comprehensive Income	-	196,752
Depreciation expense	-	(25,317)
Fair Value at end of period	29,345	1,246,032

Valuation techniques to derive Level 3 fair values

Properties of a specialised nature that are rarely sold in an active market or are held to deliver public services are referred to as non-market or current use type assets. These properties do not normally have a feasible alternative use due to restrictions or limitations on their use and disposal. The existing use is their highest and best use.

Land (Level 3 fair values)

Low Utility land values are applied to land highly encumbered by community service obligations or infrastructure, where the economic highest and best alternative land use is not permitted. Land Values determined under this methodology take into consideration the legal, physical, economic and socio-political factors that inhibit economic highest and best use alternatives.

Fair value measurement of public sector land draws on the values from the primary real estate market, based on comparable utility with an underlying going concern assumption.

8.3 Fair value measurements (cont.)

Buildings (Level 3 fair values)

The Health Service’s hospital and medical centres are specialised buildings valued under the cost approach. This approach uses the depreciated replacement cost method which estimates the current cost of reproduction or replacement of the buildings, on its current site, less deduction for physical deterioration and relevant forms of obsolescence. Depreciated replacement cost is the current replacement cost of an asset less, where applicable, accumulated depreciation calculated on the basis of such cost to reflect the already consumed or expired future economic benefits of the asset.

The techniques involved in the determination of the current replacement costs include:

- a) Review and updating of the ‘as-constructed’ drawing documentation;
- b) Categorisation of the drawings using the Building Utilisation Categories (BUC’s) which designate the functional areas within the clinical facilities. Each BUC has different cost rates which are calculated from the historical construction costs of similar clinical facilities and are adjusted for the year-to-year change in building costs using building cost index;
- c) Measurement of the general floor areas;
- d) Application of the BUC cost rates per square metre of general floor areas.

The maximum effective age used in the valuation of specialised buildings is 50 years. The effective age of buildings is initially calculated from the commissioning date, and is reviewed after the buildings have undergone substantial renewal, upgrade or expansion.

The straight line method of depreciation is applied to derive the depreciated replacement cost, assuming a uniform pattern of consumption over the initial 37 years of asset life (up to 75% of current replacement costs). All specialised buildings are assumed to have a residual value of 25% of their current replacement costs.

The valuations are prepared on a going concern basis until the year in which the current use is discontinued.

Buildings with definite demolition plan are not subject to annual revaluation. The depreciated replacement costs at the last valuation dates for these buildings are written down to the Statement of Comprehensive Income as depreciation expenses over their remaining useful life.

In addition, professional and project management fees estimated and added to the current replacement costs provided by Landgate for current use buildings represent significant Level 3 inputs used in the valuation process. The higher level of estimated professional and project management fees would result in higher fair value of these assets.

9. Other disclosures

This section includes additional material disclosures required by accounting standards or other pronouncements, for the understanding of this financial report.

Events occurring after the end of the reporting period	9.1
Initial application of Australian Accounting Standards	9.2
Future impact of Australian Accounting Standards not yet operative	9.3

Administered trust accounts	9.12
Equity	9.13
Supplementary financial information	9.14
Explanatory statement	9.15

9.1 Events occurring after the end of the reporting period

There were no events occurring after the reporting period which had significant financial effects on these financial statements.

9.2 Initial application of Australian Accounting Standards

AASB 2026-1 – Amendments to Australian Accounting Standards – Disclosures about Uncertainties in the Financial Statements

The Standard amends AASB 136 *Impairment of Assets* and AASB 137 *Provisions, Contingent Liabilities and Contingent Assets* to illustrate how an entity applies the requirements of the Standards to report the effects of uncertainties in its financial statements. in particular:

- a) AASB 136 – how an entity discloses information about key assumptions it uses to determine recoverable amounts of assets under ASB 136; and
- b) AASB 137 - How an entity might disclose information about plant decommissioning and site restoration obligations even if its plant decommissioning and site-restoration provision is immaterial.

The Health Service does not have any site restoration obligations for its most significant leases.

9.3 Future impact of Australian Accounting Standards not yet operative

The Health Service cannot early adopt an Australian Accounting Standard unless specifically permitted by Treasurer’s Instruction (TI) 9 – Requirement 4 *Application of Australian Accounting Standards and Other Pronouncements* or by an exemption from TI 9. Where applicable, the Health Service plans to apply the following Australian Accounting Standards from their application date.

		Operative for reporting periods beginning on/after
AASB 2024-2	<i>Amendments to Australian Accounting Standards – Classification and Measurement of Financial Instruments</i> This Standard amends AASB 7 and AASB 9 as a consequence of the issuance of <i>Amendments to the Classification and Measurement of Financial Instruments</i> (Amendments to IFRS 9 and IFRS 7) by the International Accounting Standards Board in May 2024. The Health Service has not assessed the impact of the Standard.	1 January 2026
AASB 2024-3	<i>Amendments to Australian Accounting Standards – Annual Improvements Volume 11</i> This Standard amends AASB 1, AASB 7, AASB 9, AASB 10 and AASB 107 as a consequence of the issuance of <i>Annual Improvements to IFRS Standards - Volume 11</i> by the International Accounting Standards Board in July 2024. The Health Service has not assessed the impact of the Standard.	1 January 2026
AASB 18	<i>Presentation and Disclosure in Financial Statements [for not-for-profit entities]</i> This Standard replaces AASB 101 with respect to the presentation and disclosure requirements in financial statements applicable to not-for-profit entities This Standard is a consequence of the issuance of IFRS 18 <i>Presentation and Disclosure in financial Statements</i> by the International Accounting Standards Board in April 2024. This Standard also makes amendments to other Australian Accounting Standards set out in Appendix D of this Standard. The Health Service has not assessed the impact of the Standard.	1 January 2028

9.4 Remuneration of auditors

Remuneration payable to the Auditor General in respect of the audit for the current financial year is as follows:

	2026	2025
	\$000	\$000
Auditing the accounts, financial statements, controls, and key performance indicators	380	368

9.5 Key management personnel

The key management personnel include Ministers, board members, and senior officers of the Health Service. The Health Service does not incur expenditures to compensate Ministers and those disclosures may be found in the *Annual Report on State Finances*.

The total fees, salaries, superannuation, non-monetary benefits and other benefits for members of the Accountable Authority for the reporting period are presented within the following bands:

Compensation band (\$)	2026	2025
\$0 - \$10,000	2	-
\$10,001 - \$20,000	2	-
\$20,001 - \$30,000	4	2
\$30,001 - \$40,000	2	-
\$40,001 - \$50,000	4	7
\$50,001 - \$60,000	1	-
\$60,001 - \$70,000	-	1
Total number of members of the Accountable Authority	15	10

	2026	2025
	\$000	\$000
Short-term employee benefits	404	394
Post-employment benefits	49	45
Total compensation of members of the Accountable Authority	453	439

9.5 Key management personnel (cont.)

The total fees, salaries, superannuation, non-monetary benefits and other benefits for senior officers for the reporting period are presented within the following bands:

Compensation band (\$)	2026	2025
\$0 - \$50,000	-	1
\$50,001 - \$100,000	1	1
\$100,001 - \$150,000	-	1
\$200,001 - \$250,000	4	4
\$250,001 - \$300,000	4	4
\$300,001 - \$350,000	-	1
\$450,001 - \$500,000	-	1
\$500,001 - \$550,000	2	-
Total number of senior officers	11	13

	2026	2025
	\$000	\$000
Short-term employee benefits	2,535	2,439
Post-employment benefits	345	322
Other long-term benefits	296	292
Total compensation of senior officers	3,176	3,053

The short-term employee benefits include salaries, motor vehicle benefits and travel allowances incurred by the Health Service in respect of senior officers.

9.6 Related party transactions

The Health Service is a wholly-owned public sector entity that is controlled by the State of Western Australia.

Related parties of the Health Service include:

- all Ministers and their close family members, and their controlled or jointly controlled entities;
- all board members, senior officers and their close family members, and their controlled or jointly controlled entities;
- Wholly owned public sector entities (departments and statutory authorities), including their related bodies, that are included in the whole of government consolidated financial statements;
- Associates and joint ventures of a wholly-owned public sector entity; and
- Government Employees Superannuation Board (GESB).

9.6 Related party transactions (cont.)

Significant transactions with Government-related entities

In conducting its activities, the Health Service is required to transact with the State and entities related to the State. These transactions are generally based on the standard terms and conditions that apply to all agencies. Such transactions include:

	Notes	2026 \$000	2025 \$000
<u>Income</u>			
Service agreement funding - State	4.1	775,211	697,500
Service agreement funding - Commonwealth	4.1	212,823	197,838
Mental Health Commission - Service delivery agreement	4.1	115,131	99,845
Department of Health - Research development grant	4.1	1,268	675

Contracts for services - North Metropolitan Health Service	3.2	7,065	7,065
Facility management services - North Metropolitan Health Service	3.5	2,963	2,795
Contracts for services - Department of Communities ^(a)		682	661
Insurance payments - Insurance Commission (RiskCover) ^(a)		26,548	20,015
Rental and other accommodation expenses - Department of Housing and Works ^(a)		2,904	3,256
Lease interest expense - State Fleet ^(a)		115	87
Remuneration for audit services - Office of the Auditor General	9.4	380	318

(a) These transactions are included at Note 3.6 ‘Other expenses’ and Note 7.2 ‘Finance costs’.

9.6 Related party transactions (cont.)

Significant transactions with Government-related entities (cont.)

	Notes	2026 \$000	2025 \$000
<u>Assets</u>			
Receivables at 30 June - North Metropolitan Health Service	6.1	436	1,426
<u>Liabilities</u>			
Lease liabilities at 30 June - State Fleet	7.1	1,723	1,521
Repayments of lease liabilities - State Fleet		521	494
<u>Contributed Equity</u>			
Capital appropriations administered by Department of Health	9.13	20,040	15,701

Material transactions with other related parties

Details of significant transactions between the Health Service and other related parties are as follows:

	2026 \$000	2025 \$000
Superannuation payments to GESB	64,003	57,792
Payable to GESB	4,366	3,620

All other transactions (including normal citizen type transactions) between the Health Service and Ministers, or board members, or senior officers, or their close family members, or their controlled (or jointly controlled) entities are not material for disclosure.

9.7 Related bodies

A related body is a body which receives more than half its funding and resources from the Health Service and is subject to operational control by the Health Service.

The Health Service had no related bodies during the financial year.

9.8 Affiliated bodies

An affiliated body is a body which receives more than half its funding and resources from the Health Service but is not subject to operational control by the Health Service.

The Health Service had no affiliated bodies during the financial year.

9.9 Services provided free of charge

During the reporting period, the following services were provided to other agencies free of charge:

	2026 \$000	2025 \$000
Department for Communities - health assessments for children in care	229	244
Department of Education - school health services	14,785	14,054
	<u>15,014</u>	<u>14,298</u>

9.10 Other statement of receipts and payments

	2026 \$000	2025 \$000
Commonwealth Grant - Christmas and Cocos Island		
Balance at the start of period	(80)	(82)
Receipts		
Commonwealth grant - provision of paediatric services ^(a)	80	82
Payments		
Costs of visiting specialists ^(b)	(91)	(80)
Balance at the end of period	(91)	(80)

(a) The grant to cover the costs of visiting specialists in 2024-25 has been received from Commonwealth in 2025-26.

(b) The grant to cover the costs of visiting specialists in 2025-26 will be received from Commonwealth in 2026-27.

9.11 Special purpose accounts

Mental Health Commission Fund (Child and Adolescent Health Service) Account

The purpose of the special purpose account is to receive funds from the Mental Health Commission, to fund the provision of mental health services as jointly endorsed by the Department of Health and the Mental Health Commission, in the Child and Adolescent Health Service, in accordance with the annual Service Agreement and subsequent agreements.

The special purpose account has been established under section 16(1)(d) of *the Financial Management Act 2006*.

	2026 \$000	2025 \$000
Balance at the start of period	2,302	737
Receipts		
Service delivery agreement - Commonwealth contributions	34,050	31,119
Service delivery agreement - State contributions	81,081	68,726
Specific project - Ward 5A relocation costs	-	-
	115,131	99,845
Payments	(109,423)	(98,280)
	5,708	1,565
Balance at the end of period ^(a)	8,010	2,302

(a) The closing cash balance of \$8,010,818 is classified as restricted cash (2025: \$2,302,384).

9.12 Administered trust accounts

Trust Accounts are used by the Health Service to account for funds that they may be holding on behalf of another party. The Health Service does not have control of the use of these funds, and cannot deploy them to meet its objectives. Trust Accounts do not form part of the resources available to the Health Service, and are not reported as assets in the financial statements.

The Health Service administers a trust account for the purpose of holding patients' private moneys.

The trust account did not have any receipts or payments during the financial year.

9.13 Equity

The Western Australian Government holds the equity interest in the Health Service on behalf of the community. Equity represents the residual interest in the net assets of the Health Service. The asset revaluation reserve represents that portion of equity resulting from the revaluation of non-current assets.

	2026	2025
	\$000	\$000
<u>Contributed equity</u>		
Balance at start of period	1,505,238	1,489,537
<i>Contributions by owners</i>		
Capital appropriations administered by Department of Health ^(a)	20,040	15,701
Transfer of Crown land from the DPLH ^(b)	1,687	-
Total contributions by owners	21,727	15,701
Balance at end of period	1,526,965	1,505,238

- (a) Treasurer's Instruction (TI) 8 – Requirement 8.1(i) note designates capital appropriations as contributions by owners in accordance with AASB Interpretation 1038 'Contributions by Owners Made to Wholly-Owned Public Sector Entities'.
- (b) The Department of Planning, Lands and Heritage (DPLH) transferred the additional adjacent land to the Health Service for amalgamation with the Hospital Reserve site. See Note 5.1 'Property, Plant and Equipment'.

	2026	2025
	\$000	\$000
<u>Assets revaluation reserve</u>		
Balance at start of period	424,718	227,804
Net revaluation increments/(decrements) ^{(a) (b)}		
Land	4,552	-
Buildings ^(c)	45,199	196,914
Balance at end of period	474,469	424,718

- (a) Any revaluation increment is credited directly to the asset revaluation reserve, except to the extent that any increment reverses a revaluation decrement of the same class of assets previously recognised as an expense. See Note 5.1 'Property, plant and equipment'.
- (b) Any revaluation decrement is recognised as an expense, except to the extent of any balance existing in the asset revaluation reserve in respect of that class of assets.
- (c) The 2026 building revaluation increments includes \$20.221 million for the impairment of ACP cladding. Refer to Note 5.1 'Property, plant and equipment' for further information.

9.14 Supplementary financial information

(a) Revenue, public and other property written off

	2026	2025
	\$000	\$000
Revenue and debts written off under the authority of the Accountable Authority	101	682
Revenue and debts written off under the authority of the Minister	-	587
Public and other property written off under the authority of the Accountable Authority	-	33
Public and other property written off under the authority of the Treasurer	-	1,820
	101	3,122

(b) Losses through theft, defaults and other causes

	2026	2025
	\$000	\$000
Losses of public money and public and other property through theft or default	10	-
Amounts recovered	(10)	-
Net Losses	-	-

(c) Gifts of public property

There are no gifts of public property provided by the Health Service during the period.

9.15 Explanatory statement

All variances between annual estimates (original budget) and actual results for 2026, and between the actual results for 2026 and 2025 are shown below. Narratives are provided for key major variances which vary more than 10% from their comparative and that the variation is more than 1% of the following:

1. Estimate and actual results for the current year
- Total Cost of Services of the annual estimate for the Statement of comprehensive income and Statement of cash flows (\$11.941 million), and

• Total Assets of the annual estimate for the Statement of financial position (\$20.134 million).
2. Actual results for the current year and the prior year actual
- Total Cost of Services for the previous year for the Statements of comprehensive income and Statement of cash flows (\$11.974 million), and

• Total Assets for the previous year for the Statement of financial position (\$21.174million).

Treasurer's Instruction 3 – Requirement 7.2 excludes changes in asset revaluation surplus, cash assets, receivables, payables, contributed equity and accumulated surplus from the definition of major variances for disclosure purpose.

9.15.1 Statement of Comprehensive Income Variances (cont.)

Major Variance Narratives

Variances between estimates and actuals

- (a) Service agreement funding – State - The increases reflect additional budgets and funding provided by Government to support increased cost of existing, expanded and new services in 2025-26. These included increases for hospital activity and pricing, mental health services, and other non-hospital services. Funding supplementation was also received to support adjustments to the Government Wages Policy and increasing cost for consumables to maintain service safety.

Variances between actuals for 2025-26 and 2024-25

- (b) Service agreement funding – State - The increases reflect additional budgets and funding provided by Government to support increased cost of existing, expanded and new services in 2025-26. These included increases for hospital activity and pricing increase, and other non hospital initiatives including the Child Development Services. Increase in funding was also received to support adjustments to Government Wages Policy and the associated increase in superannuation costs.
- (c) Grants from other government agencies - The increase in funding is mainly from the Mental Health Commission of \$15.1M. This increase in funding was to support the full year operations and licencing costs of the Nickoll Ward at the Hollywood Hospital, which was used as a decant facility whilst the inpatient mental health ward at the Perth Children's Hospital undergoes refurbishment. Additional funding was also provided by the Mental Health Commission for changes from the Government's Wage Policy.
